

## Keir Hardie Primary School

### Digital-Free Fridays

#### Rationale

At Keir Hardie we believe that learning is not only achieved in the classroom, learning outside brings vital skills to the holistic development of a child. We acknowledge that pupils are spending more time learning behind a screen, we aim to reduce this time, we also value the importance of providing opportunities for pupils to practice and develop life skills, promote creativity and independence. We aim to use Fridays to support this, the aim is for pupils to have time to consolidate the core skills learnt during the week, practice their reading, creative writing and mental maths skills, provide opportunities for pupils to practice and develop life skills (cooking, cleaning, gardening, problem solving, communicating) develop their creativity (D&T/ art/dancing/singing/music projects/ science experiments) and enhance their life experiences as outlined in our MAGIC moments.
