GUIDANCE FOR INTIMATE CARE OF PUPILS

Principles

- The Governing Body will act in accordance with Section 175 of the Education Act 2002 and the Government guidance 'Keeping Children Safe in Education' to safeguard and promote the welfare of pupils¹ at Keir Hardie Primary School.
- Keir Hardie Primary School takes seriously its responsibility to safeguard and promote the welfare of the children and young people in its care. Meeting a pupil's intimate care needs is one aspect of safeguarding.
- The Governing Body recognises its duties and responsibilities in relation to the Equalities Act 2010 which requires that any pupil with an impairment that affects his/her ability to carry out day-to-day activities must not be discriminated against.
- This intimate care policy should be read in conjunction with the schools' policies as below (or similarly named):
 - safeguarding policy and child protection procedures
 - staff code of conduct and guidance on safer working practice
 - whistle-blowing' and allegations management policies
 - health and safety policy and procedures
 - Special Educational Needs policy
 - policy for the administration of medicines
- The Governing Body is committed to ensuring that all staff responsible for the intimate care of pupils will undertake their duties in a professional manner at all times. It is acknowledged that these adults are in a position of great trust.
- We recognise that there is a need to treat all pupils, whatever their age, gender, disability, religion, ethnicity or sexual orientation with respect and dignity when intimate care is given. The child's welfare is of paramount importance and his/her experience of intimate and personal care should be a positive one. It is essential that every pupil is treated as an individual and that care is given gently and sensitively: no pupil should be attended to in a way that causes distress or pain.
- Staff will work in close partnership with parent/carers and other professionals to share information and provide continuity of care.
- Where pupils with complex and/or long term health conditions have a health care plan in place, the plan should, where relevant, take into account the principles and best practice guidance in this intimate care policy.
- This Intimate Care Policy has been developed to safeguard children and staff. It applies to everyone involved in the intimate care of children.

Child focused principles of intimate care

The following are the fundamental principles upon which the Policy and Guidelines are based:

- Every child has the right to be safe.
- Every child has the right to personal privacy.
- Every child has the right to be valued as an individual.
- Every child has the right to be treated with dignity and respect.
- Every child has the right to be involved and consulted in their own intimate care to the best of their abilities.
- Every child has the right to express their views on their own intimate care and to have such views taken into account.

¹ References to 'pupils' throughout this policy includes all children and young people who receive education at this establishment.

- Every child has the right to have levels of intimate care that are as consistent as possible

Definition

Intimate care can be defined as any care which involves washing, touching or carrying out a procedure to intimate personal areas which most people usually carry out themselves but some pupils are unable to do because of their young age, physical difficulties or other special needs. Examples include care associated with continence and menstrual management as well as more ordinary tasks such as help with washing, toileting or dressing.

It also includes supervision of pupils involved in intimate self-care.

BEST PRACTICE

Pupils who require regular assistance with intimate care have written Individual Education Plans (IEP), health care plans or intimate care plans agreed by staff, parents/carers and any other professionals actively involved, such as school nurses or physiotherapists. Ideally the plan should be agreed at a meeting at which all key staff and the pupil should also be present wherever possible/appropriate. Any historical concerns (such as past abuse) should be taken into account. The plan should be reviewed as necessary, but at least annually, and at any time of change of circumstances, e.g. for residential trips or staff changes (where the staff member concerned is providing intimate care). They should also take into account procedures for educational visits/day trips.

Where relevant, it is good practice to agree with the pupil and parents/carers appropriate terminology for private parts of the body and functions and this should be noted in the plan.

Where a care plan or IEP is not in place, parents/carers will be informed the same day if their child has needed help with meeting intimate care needs (eg has had an 'accident' and wet or soiled him/herself). It is recommended practice that information on intimate care should be treated as confidential and communicated in person by telephone or by sealed letter, not through the home/school diary.

In relation to record keeping, a written record should be kept in a format agreed by parents and staff every time a child has an invasive medical procedure, e.g. support with catheter usage (see afore-mentioned multi-agency guidance for the management of long term health conditions for children and young people).

Accurate records should also be kept when a child requires assistance with intimate care; these can be brief but should, as a minimum, include full date, times and any comments such as changes in the child's behaviour. It should be clear who was present in every case. These records will be kept in the child's file and available to parents/carers on request.

All pupils will be supported to achieve the highest level of autonomy that is possible given their age and abilities. Staff will encourage each individual pupil to do as much for his/herself as possible.

Staff who provide intimate care are trained in personal care (eg health and safety training in moving and handling) according to the needs of the pupil. Staff should be fully aware of best practice regarding infection control, including the requirement to wear disposable gloves and aprons where appropriate.

Staff will be supported to adapt their practice in relation to the needs of individual pupils taking into account developmental changes such as the onset of puberty and menstruation.

There must be careful communication with each pupil who needs help with intimate care in line with their preferred means of communication (verbal, symbolic, etc) to discuss their needs and preferences. Where the pupil is of an appropriate age and level of understanding permission should be sought before starting an intimate procedure.

Staff who provide intimate care should speak to the pupil personally by name, explain what they are doing and communicate with all children in a way that reflects their ages.

Every child's right to privacy and modesty will be respected. Careful consideration will be given to each pupil's situation to determine who and how many carers might need to be present when s/he needs help with intimate care. SEN advice suggests that reducing the numbers of staff involved goes some way to preserving the child's privacy and dignity. Wherever possible, the pupil's wishes and feelings should be sought and taken into account. An individual member of staff should inform another appropriate adult when they are going to assist a pupil with intimate care however intimate care would typically be undertaken with a minimum of two adults in attendance so as to safeguard both the adults and the child.

The religious views, beliefs and cultural values of children and their families should be taken into account, particularly as they might affect certain practices or determine the gender of the carer.

Whilst safer working practice is important, such as in relation to staff caring for a pupil of the same gender, there is research² which suggests there may be missed opportunities for children and young people due to over anxiety about risk factors; ideally, every pupil should have a choice regarding the member of staff. There might also be occasions when the member of staff has good reason not to work alone with a pupil. It is important that the process is transparent so that all issues stated above can be respected; this can best be achieved through a meeting with all parties, as described above, to agree what actions will be taken, where and by whom.

Adults who assist pupils with intimate care should be employees of the school, not students or volunteers, and therefore have the usual range of safer recruitment checks, including enhanced DBS checks. All staff should be aware of the school's confidentiality policy. Sensitive information will be shared only with those who need to know.

Health & Safety guidelines should be adhered to regarding waste products.

No member of staff will carry a mobile phone, camera or similar device whilst providing intimate care.

Child Protection

The Governors and staff at this school recognise that pupils with special needs and who are disabled are particularly vulnerable to all types of abuse.

The school's child protection procedures will be adhered to.

² National Children's Bureau (2004) The Dignity of Risk

From a child protection perspective it is acknowledged that intimate care involves risks for children and adults as it may involve staff touching private parts of a pupil's body. In this school best practice will be promoted and all adults (including those who are involved in intimate care and others in the vicinity) will be encouraged to be vigilant at all times, to seek advice where relevant and take account of safer working practice. If staff are providing intimate care two members of staff will be in the vicinity at all times e.g. the second staff member could be in the adjacent room with the adjoining door open.

Where appropriate, pupils will be taught personal safety skills carefully matched to their level of development and understanding.

If a member of staff has any concerns about physical changes in a pupil's presentation, e.g. unexplained marks, bruises, etc s/he will immediately report concerns to the Designated/Deputy Safeguarding Lead or Headteacher. A clear written record of the concern will be completed and a referral made to Children's Services Social Care if appropriate, in accordance with the school's child protection procedures. Parents/carers will be asked for their consent or informed that a referral is necessary prior to it being made but this should only be done where such discussion and agreement-seeking will not place the child at increased risk of suffering significant harm.

If a pupil becomes unusually distressed or very unhappy about being cared for by a particular member of staff, this should be reported to the class teacher or Headteacher. The matter will be investigated at an appropriate level (usually the Headteacher) and outcomes recorded. Parents/carers will be contacted as soon as possible in order to reach a resolution. Staffing schedules will be altered until the issue/s is/are resolved so that the child's needs remain paramount. Further advice will be taken from outside agencies if necessary.

If a pupil, or any other person, makes an allegation against an adult working at the school this should be reported to the Headteacher (or to the Chair of Governors if the concern is about the Headteacher) who will consult the Local Authority Designated Officer in accordance with the school's policy. It should not be discussed with any other members of staff or the member of staff the allegation relates to.

Similarly, any adult who has concerns about the conduct of a colleague at the school or about any improper practice will report this to the Headteacher or to the Chair of Governors, in accordance with the child protection procedures and 'whistle-blowing' policy.

Physiotherapy

Pupils who require physiotherapy whilst at school should have this carried out by a trained physiotherapist. If it is agreed in the IEP or care plan that a member of the school staff should undertake part of the physiotherapy regime (such as assisting children with exercises), then the required technique must be demonstrated by the physiotherapist personally, written guidance given and updated regularly. The physiotherapist should observe the member of staff applying the technique.

Under no circumstances should school staff devise and carry out their own exercises or physiotherapy programmes.

Any concerns about the regime or any failure in equipment should be reported to the physiotherapist.

Medical Conditions

Pupils who are disabled might require assistance with invasive or non-invasive medical procedures such as the administration of rectal medication, managing catheters or colostomy bags. These procedures will be discussed with parents/carers, documented in the health care plan or IEP and will only be carried out by staff who have been trained to do so.

It is particularly important that these staff should follow appropriate infection control guidelines and ensure that any medical items are disposed of correctly.

Any members of staff who administer first aid should be appropriately trained in accordance with LA guidance. If an examination of a child is required in an emergency aid situation it is advisable to have another adult present, with due regard to the child's privacy and dignity.

Soiling

Staff from Keir Hardie Primary School and Children's Centre will work together in partnership with parents to support each child towards independent use of the toilet.

If tending to a child who has soiled themselves during the school day staff will respond sensitively and professionally. If 'accidents' occur the child will change themselves into dry clothing, and wet items will be sent home for washing. The child's independence will be encouraged as far as possible in his/her intimate care and reassurance given. A record of the incident will be kept in school and the parent will be informed (by a note home, verbally at home collection time or phone call) and requested to return the borrowed items of clothing when laundered.

If there is an occurrence of heavier soiling or vomiting, this may require staff to provide care at a more personal level. Staff will follow set procedures for this intimate care:

- If possible, the child will be removed to a less public place to maintain dignity and avoid a feeling of embarrassment;
- If appropriate, the child will be encouraged, through guidance and assistance, to clean themselves to make them more comfortable.
- Parents should be contacted as soon as possible;
- Staff will provide further intimate care in the following situations
 1. If parents/guardians cannot be contacted - **staff will decide on the most appropriate care to minimise any stress, discomfort or anxiety the child may be experiencing.**
 2. If the parents/guardians are unable to come to school.
 3. If the child is very distressed or suffering unduly.
 4. Intimate care will only be provided to older children in extreme circumstances. It is anticipated that older children will be able to manage any circumstances given guidance or assistance

INTIMATE CARE CHANGING FORM

Date	Time	Signatures		

Early Years Foundation Stage Permission Form for Intimate Care

Dear Parents,

If a child wets or soils themselves whilst they are in school, it is important that measures are taken to have them changed and if necessary cleaned as quickly as possible. Our staff are experienced at carrying out this task if you wish for them to do so or, if preferred, the school can contact you or your emergency contact who will be asked to attend without delay.

Keir Hardie Primary has an Intimate Care Policy which is available to view on our website.

Please fill out the permission slip below stating your preference.

.....

Consent for intimate care

Name of child..... Class.....

Please tick as appropriate

- I give consent for my child to be changed and cleaned if they wet/soil themselves whilst in the care of Keir Hardie Primary School
- I do not give consent for my child to be changed and cleaned if they wet or soil themselves. The school will contact me or my emergency contact and I will organise for my child to be cleaned and changed. I understand that in the event that I or my emergency contact cannot be contacted, the staff will act appropriately and may need to come into some level of physical contact in order to aid my child.
